Latest European News—The Peace Congress at Prague—Peace Considered Certain—Napoleon Rejects Maximilian's Demand for More Men—Brilliant Reception of American Officers at St. Petersburg.

Paris, Aug. 24th—p. m. It is reasserted that the Emperor Napoleon has firmly rejected the demands of the Empress of Mexico for assistance to quell the insurgents.

Among the reasons given by Napoleon for his refusal of aid, was the necessity of keeping faith with the United States concerning the withdrawal of the French troops from Mexico.

St. Petersburg, Aug. 23. Honors to the U. S. representatives continued, and an unparalleled grand reception occurred on Sunday at the Imperial Palace of Peterhoff.—The officers of the American fleet were presented to the Emperor and Empress. Subsequently Mr. Fox and others were presented to the Grand Duchess, and all the officers breakfasted at the palace and dined at the Merchants' Clerks' Club. There was a ball in the evening and grand illuminations.—There was also a review of the army at the camp.

The sailors were given a dinner, at Cronstadt. Thousands still visit the ships.

At the Court dinner yesterday the Emperor, departing from the ancient custom, rose and said:

"I propose the prosperity of the United States and her deputation, and continued friendship between Russia and America."

There was an Imperial ball in the evening.

Berlin, Aug. 23. The address, to the King embodying the principles of the moderate Liberal party, has been passed by the lower House by a large majority. There were only twenty-five negative votes, Poles and Catholics.

Vienna, Aug. 23. The feeling in Austria is peace for the present, but war for the future, to re-establish her power in Germany.

Munich, Aug. 23. The districts Bavaria cedes to Prussia are those of Orbgresfeld and Hilterstban, in Lower Franconia, containing 40,000, inhabitants.

The Empress of Mexico requires money, and not continued occupation, from France; and, it is stated, if refused, the Empress will announce the abdication of Maximilian.

London, Aug. 25—noon. Advices have been received to-day in official circles here, announcing that a treaty of peace between the contending powers of Prussia, Italy, Austria and Bavaria, was concluded by the plenipotentiaries in session, at Prague, on Thursday last. The treaty was officially signed by the plenipotentiaries in behalf of their respective governments, on the same day.—Among the provisions of the treaty is one that the troops now at different points shall evacuate their positions, and retire to their respective homes within three weeks.

Paris, Aug. 25—noon. An immense demand has sprung up here for U. S. 5-20's and heavy orders for supplies have been telegraphed to American agents of various banking houses in this city.

NEW YORK, Aug 25.

No material changes in the cholera yesterday—8 new cases and 7 deaths were reported in this city. In Brooklyn the disease continued to abate.

A Leavenworth special to The Tribune reports additional murders by the Indians between forts Reno and Laramie.

A fearful and bloody war is predicted.

The clerks in the Attorney General's office are kept busy with the Philadelphia conventionists, who throng the office to file petitions for the removal of republicans and the appointment of copperheads to office.

A gentleman just returned from a visit to Culpepper county, Virginia, says that when the news of the result of the Philadelphia convention reached that section, rebel flags were displayed in honor of the event. Very few Union flags were hoisted.

It is rumored that Judge Advocate-General Holt has been removed from his position in the War Department, it being inconvenient to have a Republican in that position at the present time.

The Secretary of War has instructed the Paymaster General to suspend the payment of the bounties to colored soldiers authorized by the act of Congress approved June 26, 1866, and directed him to turn over his class of claims to the Second Auditor's office. It will be remembered that about two weeks ago the Pay Department officially announced that it was ready to pay these claims.

Private letters received here from all parts of Pennsylvania unite in saying that the Union party will carry that State in the October election by a large majority. Judge Kelley, who when he left here was of opinion that the Congressional delegation would stand as at present, writes to a friend that the Unionists will probably gain three members.—[Special to Boston Adv.]

AN OUTSPOKEN POSTMASTER. The following letter is certainly very explicit. The writer shows no special care in his choice of words. His phrases are not in the best of taste, but his truths and facts and inferences cannot be controverted. It is to be hoped that the President and his clique may stir up a few more such officials:

POST OFFICE, New Canaan,
Fairfield Co., Conn., Aug. 6th, 1866.

Hon. Alexander W. Randall:

Sir: Your circular for the call of the Wilkes Booth Convention to meet in Philadelphia on the 14th inst., has been duly received under the frank of the eminent Pennsylvania senator. I suppose I am indebted to the honorable Connecticut renegade for this early "smoking out" attention. For the mark of extreme kindness he and you have my thanks. Most of the apparent purposes of the call met my entire approval, but chaff is at a discount just now.

No man unwilling to be deceived can mistake the latent object of the intended gathering, rising as it does from the ashes of the assassin. Had Wilkes Booth never lived, the Convention would never have been called. Now, every sympathizing friend of his foul deed, from Maine to California, endorses it! Every indulgent conciliatory advocate of the interesting ceremony of bullying, bludgeoning and murdering public men (who advocate the rights of man) approve it!

Every patriotic resolver, "that the war for the Union is a failure," is in ecstacies over it! Every bitter secessionist, ever fighting rebel in the terrible war that has cost this nation hundreds of thousands of lives and billions of money, every conniving traitor that has been struggling to tear down the government that Washington planted and Lincoln saved, is singing peans of glory to it. And *every press* in the entire United States *now advocating it*, is obliged to extuse, palliate, and defend the burning, murders, and massacres continually dropping out throughout volcanic rebeldom. From all such sympathies, tendencies and operations, Mr. Randall, I most respectfully respond, "Lord, deliver me." My conscience, my manhood, is my own. To me they are of more value than any office on earth. You have my answer.

Briefly yours,

N. W. HOYT, P. M.

What General Chamberlain Says.

All must unite in *demanding security for the future.* We must have guaranties good and sufficient, against any future attempt to destroy this Government whether in the exercise of a pretended right by open war or BY MORE ARTFUL AND INSIDIOUS ASSAULTS against the principles on which this Nation was founded. These are points we cannot yield without danger and dishonor; and WHEN THE SOUTHERN STATES SHALL HAVE COMPLIED WITH THOSE CONDITIONS IN GOOD FAITH, they will be in a condition to ask association and fellowship with the loyal commonwealths of the country which they deserted with such violence and scorn. UNTIL THAT TIME, in my judgment, it is wise to hold them in strict probation. * * * * * *

"We cannot go back to gather up the fragments of the Union as it was; we must now recognize the nation as it is, and make the Constitution what it should be."

PROSCRIPTION FOR OPINION'S SAKE. It is no longer doubtful that President Johnson has determined to force his own "policy" upon the country, if possible, (in defiance of the opinion and policy of the people's representatives,) by using the official guillotine upon every office-holder who does not agree with him in opinion, and who has the boldness and manliness to express that opinion. Numerous removals are reported in Pennsylvania and several of the Western States, and some in Maine and Massachusetts, for this cause and no other. Those who conscientiously believe, as the great body of loyal men do believe, that it is not *safe* to admit the rebel States to political power without some binding guaranties that *they* cannot break, are to be removed from office, and men who uphold the Executive in thus striving to "force *his* policy upon the country, in the teeth of the representatives of the people, are to be appointed in their places.

In doing this, it is falsely asserted, he appoints no democrats—none but "conservative Republicans." That was what John John Tyler first tried, in 1841, and the last ever heard of John Tyler was his address at the close of his term. The Whigs who adhered to him comprised the "Tyler men" whom he appointed to office and their personal friends, while the democrats, after squeezing him dry, threw him over with contempt when it came to the day of nomination. If Mr. Johnson chooses to follow in John Tyler's footsteps, he will only unite the loyal masses of the country more solidly in opposition to his policy—by a most offensive and dictatorial course—and will be consigned by posterity to an equal oblivion—or worse yet, to an immortality of infamy equalled only by that of Benedict Arnold.

ONE BY ONE THEY GO. The gallant Sheridan, it is said, has been or will be superseded at New Orleans, by order of the President. He has done nothing that we know of worthy of death, except to order the suppression of all "*re*-organizations of Confederate companies, batteries," &c., in his department, and protesting against the President taking side with the rebels in the late New Orleans massacre. The brave Howard has also been asked for his resignation by the the same "A. J." Loyal officers, who did the best fighting against the rebels, are removed from the South to Rocky Mountain or Indian stations, and their places filled with toadying generals who support "My Policy." So it goes.

The Times says that the National Intelligencer has denied that a paragraph which we quoted as from that paper ever appeared in its columns. We do not have the Intelligencer, and if such denial has appeared in other papers, it must have been during our absence from the city. We presume it was so. We have no doubt of the fact stated, however,—that a Convention of Union men (that is, of men who took part against the rebels during the war and now go against Johnson's policy) could not safely assemble in a rebel State—whether the Intelligencer said so or not.

The radical agent of the Associated Press at Bangor telegraphed over the country that the Johnson Mass Meeting in that city numbered but three hundred, or less.—[Argus.

The Argus is mistaken. The agent of the Associated Press here mentioned no number at all in his despatch. He only said the gathering was "not so large as expected." Nobody of sense here denies that. The *fact* about it is that less than 2000 were present, when 10,000 at least were expected." Not a hundred in all arrived here by the express train from the west—and that was about a specimen of the arrivals from other directions.

HOW IT STRIKES THEM. Speaking of the odd "position" of the Bangor Times—supporting the traitor Johnson *with* the gallant and loyal Chamberlain's name at its head, the Machias Republican says:

We were standing at the desk looking over the Bangor Times with one of the leading democrats of this town. Some remark was made about the political *variety* in that paper, when the democrat remarked that any one might read it for one week, and he could not tell which side it was on; then turning over the page, he spread his hand upon the column of public laws and said, "That's what it is!"

ANOTHER ITEM FOR GOV. PARSONS. Is the following from an influential southern paper, the Mobile Tribune, a sample of some of the "good feeling" and "submission" at the South? Speaking of one of the prominent loyal victims of the New Orleans massacre, it says:

Let Dostie's skin be forthwith stripped from his body, stuffed and sold to Barnum, —the proceeds to go to the Freedmen's Bureau and negro newspapers, to be used by them for the benefit of negroes who have no taste for work. Dostie's body will make good soap. Let him be boiled down, preparatory to being distributed in bars to Yankee school marms. Delicious will be the kisses slipped by those angular females from ebony cheeks, late lathered with sweet-scented Dostie."

THE RICHMOND PRESS ON THE PHILADELPHIA CONVENTION. Elsewhere we have copied the indignant remarks of The Richmond Enquirer on the resolutions and address of the Philadelphia Convention. The Whig of last Monday thinks it inexpedient to discuss the subject fully now at the South, but adds:

"A single remark, however, we do not consider ourselves at liberty, in candor and honor, to refrain from making. It is this: That, in so far as the address assumes that the people of the South are responsible for the war, that the war was a rebellion, that they are disposed to acknowledge culpability and contrition, that the Federal Government acted in self-defense and under the Constitution, &c., *it assumes what the people of the South do not believe or feel to be true, and what, therefore, they have no thought of admitting.*"

Is not this the kernel of the whole matter? If the people of the South still claim that the *North* is responsible for the war, that the war was *not* a rebellion, that there is no culpability and no call for contrition resting upon the Southern people, that the Federal Government acted on the aggressive and outside of the Constitution—if this is the case, what under the sun was the Philadelphia Convention but a sham, a delusion and the most contemptible of mockeries? Why, if what The Whig says be true, the insurrection is not "at an end," and we must take care, or we shall have to fight it over again.

The Richmond Times also denies the soundness of the doctrines put forth at Philadelphia in regard to the South, but it begs its Southern contemporaries to refrain from hostile criticism, saying:

"The President has formally adopted the new party as the Administration party, and has placed himself at its head, with the assurance of all the aid and support which his great office commands. The party is now fighting a great battle, and, if it triumphs, the best fruits of its victories will be *ours*. If, in the fall elections, they crush and annihilate the *revolutionists*, the honor and political rights of the South will be forever secure and we shall once more become the peers and equals of the triumphant section in every department of the government."

This foreshadows the course the Southern leaders will take in inculcating any sort of submission now, for the sake of getting control of the Government and then righting all their fancied wrongs. The suggestions of these two papers are equally significant in their ways.—[Boston Journal.

The Soldier's National Convention.

The call for the Union Soldiers Convention at Pittsburgh, Penn., has already received a unanimous indorsement from all quarters of the country. The Executive Committee of the Soldiers' and Sailors' League of this city has acknowledged the receipt of some decidedly radical letters from soldiers who had served during the rebellion, and who, it was supposed, were dubious. It is presumed, from the early manifestation of enthusiasm, that this Convention will not only reflect the sentiment of the loyal North, but will have an effect to show the author of "My Policy" that the "boys in blue" are not willing to sacrifice their honorable reputations for office, nor acknowledge the Rebels as entitled to as much consideration from the Government as themselves.—[Cor Tribune, Aug. 23d.

THE PHILADELPHIA CONVENTION. Gen. A. R. Wright, editor of the Augusta (Ga.) Sentinel, writing to his paper from Philadelphia, throws some new light upon the late gathering there. After describing the "most extravagant exhibitions of delight and approval" which greeted the resolutions and address, the General significantly adds:

"During these enthusiastic demonstrations of approval, I noticed that *the Southern men very generally kept quiet and apparently unmoved.* This was in view of the fact that any other course would have been made the pretext, by the Radicals, of assailing the proceedings, by declaring that *all the enthusiasm* was exhibited by the South, and that the whole affair was but another Southern victory."

What delicate strategy! What deference to "the Radicals!" What forbearance!—Their great enemy, Congress, belabored, and no shout of approval from Southern lungs. What ingratitude! The Radicals shown up, and not a responding cheer. What cowardice! Alas for "the chivalry!" But there is something which he says further on, that should properly have come in here, and then the silence of the Southern delegates would not have seemed so ambiguous. We quote:

"The address to the people of the United States, as published, is not in the exact phraseology which was reported by the Committee. There are a few phrases used in describing parties to the late war which *are offensive to a portion of our people,* and they were ordered to be stricken out of the address, before it was reported to the Convention. By some oversight this was not done, and hence the official copy of the address will be slightly modified."

"That's what's the matter." The address was "offensive to a portion of the people." They had no sympathy with the document, and gave it no cheers. The General approves it on the ground that it is the best thing that can be got from the North, and may lead to the defeat of the Radicals.

COMING TO ROLL CALL. Of the thousands of Republican journals in the United States which assisted in the election of Mr. Johnson, hardly half a dozen were openly opposing his administration, though most of them distrusted and censured his policy, when Congress began its last session. Of all these thousands hardly a score stood by him after his speech of the 22d of February, and of this score not a dozen pretended to support him after his vetoes of the Freedmen's Bureau and Civil Rights bill. Of these, only two are on our exchange list, but the Chicago Tribune informs us that they are all scampering back to the Republican fold as fast as their editorial legs will carry them. It says:

"The editor of the Albany Evening Journal resigned his postoffice in order to regain his political liberty. He is now doing battle for the Republican cause. The Hartford Courant, once Dixon's organ, now repudiates that renegade and denounces his master. The Pittsburg Commercial, after sailing just as snug to the breakers as it dare, has tacked about. The Cleveland Herald, whose editor still holds the postoffice, continues to straddle the fence. The Chicago Journal has got fairly on the Republican side of the fence and has quit abusing the Radicals."

The return of these prodigals from their luxurious *symposia* among the husks which the Copperhead swine did eat, leaves the N. Y. Times as much alone in its defection from the party, as was its editor Raymond in Congress.—[Press.

Malaria Everywhere.

Rarely has there been a season as fruitful as this of malarious diseases. Not only on the prairies and in the valleys of the West; not merely in all the old haunts of Fever and Ague and Billious Remittent Fever have these prostrating diseases been unusually virulent; but they have extended to towns and cities never before infested with them, and have even ascended the mountains and attacked thousands of people supposed to have been placed by the laws of Nature above their reach. Hence we are compelled to admit that a fatal element pervades the Universal Air this season, and should at once resort to the only approved preventive of its consequences,

HOSTETTER'S STOMACH BITTERS,

a tonic so potent, an anti-septic so perfect, an alterative so irresistible, and a stimulant so pure; that it enables the human system to resist and baffle all the predisposing causes of disease. With the confidence that one clothed in incombustible garments might move among blazing buildings, the man who arms himself against malaria with this powerful *defensive medicine* may walk a fever-scourged district fearless of its insalubrious atmosphere. The intermittents and remittents at present so general in all parts of the country may be but the forerunners of a deadlier scourge now on its way westward from the far East. KNOWLES'

Vegetable Hair Restorer!

AS A HAIR PREPARATION this stands without a rival—has proved itself by the thousands who have tested its virtues for the past three years,

THE ONLY RELIABLE RESTORER

Of Gray, Faded, or Diseased Hair, to its original color, condition and former beauty.

It is not a *Dye*, being a Vegetable Compound and not injurious in its application; but is warranted to restore Gray, Faded, or Diseased Hair to its original color in 20 days.

By its invigorating properties, promotes a luxuriant growth on Bald Heads, in all cases where such a result is possible; prevents the hair from falling off; eradicates dandruff, humors, and all other impurities from the scalp; and as a Restorer and Dressing combined, it has no equal.

The great and increasing sales of this preparation attest the high value in which it is held; and the fact that its reputation has been established solely upon its own merit and worth—the trial of a single bottle will convince the most skeptical of its virtues.

News from Washington

The National Labor League Committee have an Interview with the President.

Speech of the Chairman of the Committee.

RESPONSE BY PRESIDENT JOHNSON.

Later from Mexico.

WASHINGTON, Aug. 25.

This afternoon the committee appointed by the National Labor League, recently in session in Baltimore, had an audience with the President by appointment.

Mr. John Henchliffe, of Ill., addressed the President in behalf of the committee, saying he had the honor to present some facts for his consideration.

It had been represented that the calling of the recent convention was for the purpose of forming a new party. This, in a political sense was not true. It was for the object of discussing and establishing such measures as would best affect the needed reforms. Those who composed that Convention were especially interested in the reduction of the hours of labor. That was the corner stone of their movement Eight hours as a day's labor legally considered considered. They ignored political issues and politics, and did not consider their organization as having anything to do with them. They appeared as laborers and as such presented their claims to the President's favorable consideration, and asked him if he deemed it proper to imitate the example of President Van Buren, when he was approached by parties similarly interested, asking for a reduction of labor to ten hours a day at the navy yards, and in other Government mechanical departments. This was granted by a general order. The example was followed all over the country by private employers, and the custom has become in some degree a law. They now desire to ask a still further reduction to eight hours a day. They believed they had advanced sufficiently by the improvements in machinery and otherwise to justify them in asking for a participation in the benefits which would thereby be conferred. They thought it would add to their physical as well as moral and intellectual development, and they desired also to call the attention of the President to another subject, namely, the disposition of the public lands. They thought too much had been permitted to accumulate in the hands of speculators, and in too large a degree given to incorporate companies for railroad purposes. This, in their opinion, was prejudicial to agriculturists and to actual settlers. The seizing on all choice lands by monopolies was beneficial neither to the National nor State Governments.

They asked the President to take this subject into consideration with a view of using his influence to remedy the evil. They worked on the principle that the lands should be held by those who till the soil.

They would also advert to another point. As protection is sought by some manufacturing interests, it would seem nothing but fair that there should be some consideration for the protection of the interests of the laboring man. If those manufacturing interests desire protection, from the importation and the competition of foreign goods, the workingmen desire protection against foreign pauper labor, which is brought into the market for no other purpose than of reducing the price of labor of our own countrymen.

And they also invited attention to the system of convict labor, which they thought had a deleterious influence on their interests inasmuch as convict labor is obtained at such low rates as depreciated the value of honest work. They thought they were entitled to protection against the system, but they asked in this no particular assistance.

They were determined to take affairs in their own hands, but at the same time they asked some recognition from the headquarters of the Nation, who, they believed, was in full sympathy with them, and from whom they hoped to have a favorable response.

The President, in response, said, he was very much obliged to the committee for this visit, and for the opportunity thus afforded of conversing with them. He was gratified that they had thought proper to pay their respects to him, and show their defence. He should not undertake to reply in the form of a speech to what had been said, but rather in the way of conversation.

It was scarcely necessary for him to do more than refer them to his past record. Without making any declarations reversing the order of the subject to which allusion had been made, he would say that the one of convict labor was familiar to him, for in the Legislature of Tennessee he introduced a resolution and undertook to show that it not only disseminated against the article manufactured outside the penitentiary, but it had a tendency to degrade honest labor.

His observations serve that time confirmed him in the justness of the opinion then expressed.

He had sought to prepare the public mind for the adoption of measures to remedy the evil with regard to public lands. It was known to all how he had labored for the homestead policy, dating as far back as 1846. At first it was met with taunts and jeers, but finally, in 1850 and '51, the object was accomplished with the House of Representatives in the shape of a bill. It went to the Senate and there was lost. Subsequently he was sent to the Senate and there he followed the subject, and the bill was passed by that body and the House of Representatives, but was vetoed by President Buchanan. He had always been opposed to the monopoly of the public lands to the speculators incidental to them. Therefore in the discussion of the homestead policy he had made various efforts to show that as a fundamental measure it would increase the revenue of the Government, while increasing the happiness of the people.

The chairman of the committee here said that the committee very well remembered his veto of the Montana Iron Company's bill.

The President remarked he was in favor of the principles that workingmen should have have suitable time for labor, for rest, and for their intellectual culture,—this was a proposition self-evident to his mind, and he was glad to see the country worked up to it,—the men of labor ought to come forward and assert their position. Just in this connection, he would say, that this is a very important time to speak of independence, for there were many cords and shackles being fastened on the people, which ought to be broken. He had alway been an extreme advocate, in the proper sense of the term, and yet he was in favor of one kind of aristocracy—that of labor,—the laboring man, with virtuous and industrious habits, constitutes the true aristocracy; therefore he was for an aristocracy of labor, for on that all our national prosperty rests. As to the number of hours which should constitute a day's labor, that was a matter of detail and experience, which they could consider and settle as they went along; but he would say, that he was in favor of the shortest number of hours for a day's work which would accomplish its ends. Assuming all these propositions, he would say to those before him, that they had his sympathy, as far as it was worth anything, and his influence, to carry out their great object. His acts would correspond with what he had just said.

Mr. Henchliffe then remarked:

Allow me, Mr. President, to thank you on the part of these gentlemen, for the honor of this interview, and also to thank you on behalf of the laboring people of the United States, for the sentiments you have expressed.

On the conclusion of these remarks the spokesman of the workingmen introduced the members, individually, to the President. The delegates then retired, evidently much gratified with their interview with the President.

The 1st. regiment of city troops will act as escort to the President—a duty they have performed on every occasion of a Presidential visit to this city.

A meeting of merchants has been called for to-morrow, to take measures for the Presidential reception. It will be held at the Exchange, the Board of Trade, it is alleged, having refused the use of their rooms for the purpose.

It is believed that the city authorities will take no part in the reception, no meeting of the City Council having yet been called.

Wood called him out of the room, and fired upon him, the ball passing through Gallaway's hand inflicting a painful wound. Wood attempted to escape, but was pursued and captured. The excited crowd soon gathered, and he would have been hung to a lamp post but for Gen. Forrest, who, taking hold of him, told the crowd that justice should be meted out to him, but for the present he would protect him with his life. Wood is under arrest.

The American citizens accompanying the arms were arrested by Canales, but were subsequently released.

—The Annual Camp Meeting at Northport is to be held this week—commencing to-day. It looks now as if the weather might be pleasant during the week. The rainy spell which has lasted two or three weeks, more or less, has apparently "broken." The barge Fairy of the Wave will take passengers to the camp ground to-day, and we suppose daily through the week. No pleasanter location for a meeting of this kind can be found than at the Northport Grove, on the immediate shore of the beautiful Belfast Bay. We presume full arrangements for boarding those who wish are made, although we no have positive information on the subject.

DREADFUL. The Times says (since Butler and Miller have been appointed) with dreadful emphasis "That thunder cloud has now settled down over the Whig Office black as midnight." It would be awful if we should lose the advertising of that list of letters—paying as much as $8 per month!—We shall endeavor to stand it, however, if it *does* come. We think A. J. will not remove the Whig office at present. He is welcome to all the official patronage we have or ever had.

THE CAMP MEETING AT CHARLESTON, in this county, will commence on Tuesday, the 11th of September, at 10 A. M. The ground is about one mile from the old camp ground, and about the same distance from Quimby's tavern. We are requested to state that there will be good accommodations for boarding and lodging—as a boarding tent will be prepared, and other accommodations for boarding, lodging, refreshments, both for gentlemen and ladies, keeping of teams, &c., near the camp ground.—The premises are under the control of the Methodist Association, and good order will be preserved. The religious season will undoubtedly be a very interesting and profitable one—and the trip to and from the camp very pleasant.

SEBEC LAKE. A friend at Newport sends us an account of the great natural attractions of this Maine watering-place; but it is too long for our columns in this time of political requirements. We shall be pleased to publish it "after election" if not too late in the season.

MORE GARDEN THIEVES CONVICTED.—Officer McLaughlin convicted two more boys on Saturday for stealing from his garden—Alvah Hatch and Chas. Bagley. One had to pay $7,49, the other $6,30, or go to jail.

—Thanks to Penobscot River Express for Boston papers in advance of the mail.

—Among the other numerous improvements in our city we notice that the Methodist Chapel on Pine street has been handsomely re-painted on the outside, and the pews are being partially re-modeled, new furnaces being built, &c. Nearly all the private houses in the city have had or are having more or less of repairs, improvements and general brushing up this year.—There was never so much of this kind of work done in any one year previously; and not so much building for many years. People are wisely appropriating some of their surplus profits to the improvement and adornment of their houses. The work commenced in the early spring and bids fair to continue until the snow flies again. Mechanics appear to be having a general good time.

EXCURSION TO MOUNT DESERT. The last excursion of the season to this delightful locality will be made by the steamer Regulator to-day, her place on the line hence to Portland being taken by the Lady Lang. Good music has been provided, and the officers of the boat will spare no pains to render the trip agreeable.

RETURN OF THE EAGLES. The members of Eagle Engine Company No. 3, who have been on an excursion for the past week, arrived home Saturday evening, firing a salute as they came up the river. They have had an extensive and very pleasant excursion among the islands of our beautiful bay, going as far east as Isle-au-Haut, where they have some old friends and are very popular with the inhabitants. On Eagle Island the company made an important capture, after a considerable contest—a lusty young *eagle*, who fought them well with beak and talons. He accompanied his captors home, however, and will in future have charge of their house in the absence of the company. He already stands eighteen inches high, and bids fair to be a terrible bird.

—Speaking of Thomas A. Staples, just appointed to the Machias Custom House, the Republican says: "He never was in sympathy with the Republican party; he belonged to it for a while, and then went over to the democrats, and was their candidate for several offices, and was always handsomely beaten by the Republicans.

—Walter Brown of Portland and Josh Ward of New York are to have a boat race in Portland Harbor, in September, for $100 a side.

—The fishermen on a portion of the Newfoundland coast fail to catch fish enough for a support, and are turning their attention to farming.

—At a criminal term of the Supreme Judicial Court now in session at Portland, Charles F. Reynolds, for larceny, from the house of General Shepley, was sentenced to two years imprisonment in the State Prison.

—The Oxford Democrat says: "It is really amusing to see the old war horses among the copperheads, pricking up their ears and starting off in the direction of the Johnson crib."

—The annual exhibition of the old Kennebec Agricultural Society will be held at Readfield, Oct. 3d and 4th.

—The Portland Press says that the authorities of Portland have decided to lay out a public park, and have appropriated $1000 for this object.

—The Kennebec Journal says that the Waterville Horse Association will combine with the State Horse Show the present year and will hold a grand exhibition on Thayer & Keegan's grounds in that city on Tuesday, Wednesday and Thursday Sept. 25, 26, and 27.

—The Farmer says Mr. Harrison Lyon, residing in the west part of Augusta, while engaged recently in digging a well, found at the depth of twenty feet below the surface (after having just passed a strata of primitive clay) a large pine knot perfectly sound. It was embedded in a strata of coarse gravel.

"MY POLICY" IN BATH. The Bath Times of that city says: "The Johnson meeting, held last evening in response to the call signed "Many Citizens," was not very fully attended, fourteen or fifteen being present, none of whom ever made any pretense of belonging to the Union party.

—The Bath Times utters the following undoubted truth: "We are authentically informed that Bath is not the only place where people do not mind their business."

—A violent hail storm passed over Biddeford and Saco on Wednesday afternoon doing much damage to the crops, and uprooting many trees in the vicinity.

—A correspondent of the Star at Kendall's Mills, says that a young man in that village named Charles Brown, vomited up a dead snake on Monday. It was an ordinary green field snake, and about 12 inches long. The young man says that he feels better.

—We are informed that Walter Sargent of Gouldsboro, Me., for the past year a student at the E. M. C. Seminary, Bucksport, received an appointment, the 15th inst. as Acting Master in the regular Naval service, with orders to report on board U. S. S. Tahoma at Boston. The pay of Acting Masters has been raised to $2100 per year.

—The Biddeford Journal says: "We learn that in certain quarters it is currently reported that Messrs. James M. Deering, Postmaster, Owen B. Chadbourne, Custom House Collector, and John Gaines, Assistant Assessor in Saco, were going over to "My Policy," Let it be understood once for all that Andrew Johnson cannot buy those Republicans, and that they are as true as steel. The lies are put in circulation to influence some weak-kneed individual."

—Washington County Union Convention met at Dennysville on the 15th instant.—The following nominations were made: For Senators, Gen. C. H. Smith, Eastport, and George Wingate, Cherryfield; For Commissioner, Aaron Hobart, Edmunds; For Treasurer, Ignatius Sargent, Machias; For Sheriff, B. W. Farrar, Machias.

TALL SPECIMEN OF LYING. Our neighbor of the Times *actually endorses* the following stupendous lie copied from the Boston Post. Everybody here knows it is an utter and audacious falsehood. "Davenport Square" was at no time one-eighth full of people—and the utmost that can be truthfully claimed as being present is 2000—hundreds of whom had no sympathy with the meeting. But hear the Munchausen of the Post:

Although comparatively short notice was given of the meeting, *Davenport Square was crowded to its utmost capacity*. Hundreds of ladies graced the occasion with their presence, and the band—the Bangor Cornet—discoursed excellent music. An ample platform profusely decorated with American flags overlooking the scene.

More than a week's notice was given of the meeting, and only a hundred persons came by the great express train. As to those "profuse American flags" only one poor forlorn specimen torn entirely through the "Union" and looking as if ashamed of its situation, "graced the platform."

A BELFAST SHIP. The Alta California of July 26 says:

The ship Ivanhoe, which arrived from New York a few days since, and is now lying at Pacific street wharf discharging cargo, is attracting the attention of those interested in shipping. She was built in Belfast, Maine, in the latter part of 1865, and this is her first trip. Her builder was C. P. Carter, and her cost $167,000. She is the first American vessel built under the new law of Congress rating under the "Thirteen years class," and surveyed and registered according to the standard established by the French Lloyds, and adopted by the United States. Her tonnage measurement is 1,610 tons, but her cargo, which is now being landed in fine condition, will amount to 3,500 tons of assorted merchandise. Her hull is oak, and every part of her is finished in the most perfect manner possible, no expense being spared and no labor omitted necessary to make her a perfect vessel of her class. She is owned by Captain Harriman, who is in command, Mr Lancaster, who is now in this city, and other parties, residing at the east. The Ivanhoe will proceed to the Chincha Islands, to load with guano for England, as soon as her cargo now on board is discharged. Her commander, Captain Harriman, appears to be every inch a sailor, and he may well be proud of the noble vessel under his command.

GENERAL ITEMS.

"TRANQUILITY" ILLUSTRATED. The Ellsworth American says that President Johnson has within a few days announced to the world that "peace, order and tranquility reigns in Texas," and yet while we are penning this there is a gentleman of Texas in our streets, formerly from this town, who was obliged to flee from the country leaving his property at the mercy of the rebels. He says that Union men are not any safer in Texas to-day, than they were during the war.

—Gov. H. A. Wise in a late address said that the rebellion was sent by God to abolish slavery, but argued that it was wrong to punish rebels, for acts clearly committed in accordance with the design of the Almighty.

—The Richmond Times gives Mr. Johnson the following gentle nudge: "There are cheering indications that it is the purpose of the President, before long, to bowstring a number of the military satraps of the radical party, and put conservative soldiers from West Point in their places. The Augean stable of the Freedmen's Bureau stands sadly in need of cleaning."

—The New York World hopes that the President will not transfer Secretary Stanton to some diplomatic post, so that he may get out of the country without undergoing "personal chastisement." Here is a loud call for another Bully Brooks or Rosseau.

—On the road to ruin every traveller pays his own fare. There are no dead heads.

—In the Canadian Parliament recently one of the members stated that the destiny of the country was inevitable; that the American people are masters of the continent to all intents and purposes, and that money spent on Canadian fortifications is money wasted.

THE GREAT PORTLAND FIRE!

Tilton & McFarland, 110 Sudbury Street, BOSTON,

BEG leave to call the attention of the public to the following testimonials, being a few of the many received from the sufferers by the late fire.—Safes made to order and second hand Safes taken in exchange.

UNSOLICITED!

PORTLAND, July 12, 1866.

Messrs. TILTON & McFARLAND, 110 Sudbury street, Boston.

Dear Sirs:—We take great pleasure in informing you that the BURGLAR PROOF SAFE we purchased of you, came out of the conflagration of 4th and 5th insts., with ITS CONTENTS ENTIRELY UNINJURED.

The safe was exposed to an intense heat caused by the burning of a large quantity of su ar, and we consider suffered as severe a test as cou'd well be devised for it. It contained a large quantity of valuable securities, which, as we have said, were entirely uninjured.

We shall wish you to make us another Safe on some future occasion. Yours truly, J. B. BROWN & SONS.

PORTLAND, July 12, 1866.

Messrs. TILTON & McFARLAND, 110 Sudbury street, Boston.

Gentlemen:—We are happy to inform you that the Safes we purchased of you a few months since, proved all your Agent recommended them to be. Our office was in Messrs J. B. Brown & Sons buildings, on Commercial street, which we had full of sugars, all of which was consumed.

Both Safes fell into the cellars, remaining there some forty-four hours; subject to the intense heat generated by so large an amount of sugar and material of the building, which was very large. We opened the safe on Saturday the 7th inst., and found the contents in good condition. Some papers were injured in the draws, also the bindings of the books, but every word and figure in them is perfect. The Burglar Proof Safe, we think can be repaired, but the large Fire Proof is too much injured, and we shall soon give you an order for a new one which we hope it tested will prove as valuable as those we have already tested.

CHURCHILL, BROWNS & MANSON.

PORTLAND, July 12, 1866.

Messrs. TILTON & McFARLAND, New York:

Gentlemen:—The Safe which I bought of your agent, some eight years since, was in the great fire of July 4 and 5. It was in a place hot enough to melt off one of the cast iron feet and rollers and fuse nails into the mass. The contents were injured somewhat, the paper being very tender, but I was able to copy all papers relating to business, and have received from the banks new bills for those scorched. I have sent my safe to be repaired, and have no doubt that in an ordinary fire the contents would come out uninjured.

Yours truly, H. M. PAYSON.

PORTLAND, July 12, 1866.

Messrs. TILTON & McFARLAND:

Gentlemen:—Some ten years since we purchased a Safe of your manufacture, which, in company with many others, has been subjected to a severe test in our great fire. We attempted to set the Safe out, but failed to do so, and it fell into the cellar, remaining there until the fire was extinguished and bricks moved off so that men could work. On Monday, the 9th inst., we opened the Safe; having seen a great many safes that failed, we were greatly surprised to find the inside of our Safe in good condition, a fact which at once induced us to order a new Safe of your make. This certificate is written on paper which was in the safe during the fire.

Yours truly, WM. H. WOOD & SON.

PORTLAND, Me., July 17, 1866.

Messrs. TILTON & McFARLAND:

Gentlemen—My Safe, of your manufacture, during the great fire was in the brick building opposite the post office, on Middle street. It was exposed to the full heat of the burning building; but when the walls fell, it was left but partially covered. It lay as it fell for a week after the fire, when I opened it and found the contents in good condition, a part of them not injured at all. Yours respectfully,

JOSIAH H. DRUMMOND.

PORTLAND, July 10, 1866.

Messrs. TILTON & McFARLAND:

Gentlemen—I had one of your Safes which stood in my office until it was consumed. It remained in the smouldering ruins from commencement of the fire, July 4, until Friday night, the 6th inst. On opening it I found every thing in good condition, and can cheerfully recommend it to the public, and shall most certainly order one from you when I again need a safe. Not one paper was injured my place of business was in the large brick block on Middle street, near your agents, Emery & Waterhouse.

J. D. CHENEY.

PORTLAND, July 8, 1866.

Messrs. TILTON & McFARLAND:

Gentlemen—The safe I purchased of you proves itself to be what it purports to be—ready fire proof. It was subjected to the full force of the heat of our late terrible fire, and notwithstanding the legs, mouldings, plate and knobs were entirely melted, the inside was in perfect order, and preserved all my books and papers in a per ect condition. As soon as I get a place to put a safe, I shall want another of your make.

J. GRANT.

PORTLAND, July 17, 1866.

Messrs. TILTON & McFARLAND:

Gentlemen—I desire to testify to the superior qualities of your fire proof safes. I had one of your manufacture in use, corner of Exchange and Middle streets, at the time of the late disastrous fire, July 4th. It remained in the store during the fire and fell into the cellar, where it remained nearly buried in heated bricks until the 14th inst, when it was opened and found in a condition entirely satisfactory to me. My bank book, a package of papers, a sales-book, and a bank bill, sustained no injury, with the exception of the bindings of the books. I desire to have the safe repaired, when I shall feel sufficient confidence to give another trial.

F. R. HARRIS.

PORTLAND, July 14, 1866.

Messrs. TILTON & McFARLAND:

Gentlemen—This certifies that I have used one of your safes for the last number of years, and in the great fire of July 4th, had the misfortune to have it severely tested. I was situated in the second story of brick block corner of Cross and Middle streets, and it fell into the cellar with other combustibles, and lay burning until July 11th, at which time it was thought prudent to open it. But on doing so, it was found so hot inside that blaze instantly showed itself, which being at once smothered, and kept so until the heat escaped from the inside, the contents were taken out in good order, so much so that the books, papers and money were all perfectly legible and admitted of being handled without danger of falling to pieces. Some of the books may have to be rebound. I have given your agent an order for another safe of same size, and my confidence is so great in your safe that I should recommend them as being the best fire proof of any make of safe in our great fire.

Yours truly, F. W. KALER & CO.

PORTLAND, July 23, 1866.

Messrs. TILTON & McFARLAND, Boston:

Gents—The Safe purchased of you came out to our satisfaction. It was in the hottest part of the fire, and fell on to two (2) tons coal where it remained—the coal being on fire—completely covered with bricks, so it was impossible to remove it until fifteen days after, and the coal burnt out. So great was the heat that even after this length of time, the safe was too hot to handle. It was the new pattern Safe, No. 5. You will please send us another of the same size and thickness of filling, at your earliest convenience, and oblige

HARRIS & WATERHOUSE.

PORTLAND, Aug. 15, 1866.

Messrs. FAIRBANKS, BROWN & Co.;

Gents—I purchased of your agent a No. 2 Tilton & McFarland Safe in June last. It was sent me and deposited in my store the 3d of July last, but as I had not got the keys the safe had not been opened at the time of the fire of July 4.

It was subjected to *great heat* in the burning ruins for *several days*. When opened the wood work inside was in PERFECT ORDER.

The confidence of the business men here is decidedly in favor of your Safe, as being the best one in our fire, and people are buying them largely in preference to any other make. Yours truly,

(Signed) RICHARD COLLINS.

TILTON & McFARLAND'S SAFES.—These Safes seem to be the only ones that came out of the recent fire unscathed, preserving their contents in an admirable manner. Such is our faith in them that we have ordered one of the large size for the office of the Press. We notice also that many others have ordered them.—*Portland Press.*

TILTON & McFARLAND'S SAFES.—If anything can add to the regret occasioned by heavy losses by fire, it is the worthlessness of a safe to whose protection had been entrusted the most valuable property of the owner. There were hundreds of fire-proof safes, so-called, which, under the test of the late fire proved to be the sheerest shams, much worse than nothing, for, relying upon their protecting powers, valuables were left in them which else would have been saved. Among the safes not of that class, but which proved to be honestly made and wonderfully proof against fire, were those manufactured by Messrs. Tilton & McFarland. Read the certificates given of their capacity to resist heat. As our safe failed us, though not subjected to anything like the heat which some of those withstood successfully, we have, after examination, ordered for our new office one of this kind, feeling satisfied that these safes are what they purport to be—fire proof, under all ordinary circumstances of exposure.—*Portland Argus.*

Assets over $16,000,000!

TO meet the choice of such present or future members as may prefer to have the amount insured paid in instalments to their widows or heirs, rather than in one sum, this Company is prepared to insert in its policies a clause agreeing that in lieu of the payment of the policy and profits in one sum, an equitable amount, to be determined by the Company, may be paid annually or semi-annually for any specified number of years, (say from five to twenty-five years,) if desired.

EXAMPLE.—Suppose a policy of $10,000, with additions amounting to $5000 more, should become payable by reason of the death of the person insured, the Company, in lieu of the payment of $15,000 in one sum, would be able to give (assuming interest as realized in the past) an annuity for ten years of over $2000 per annum, or for twenty years an annuity of over $1300 per annum.

This form of annuity will remove the anxiety which may exist in the minds of some policy-holders lest the future provision they have made for their families should be ineffectual or transitory in its duration, either through unsafe investments, unwise expenditure, or other uncertainties incidental to contingent trusts.

It is not only free from the ordinary dangers of investment, but its punctual and full payment is secured by the LARGE AND SOLID CASH RESOURCES and good faith of this institution, which thus, to a certain extent, becomes the GUARDIAN or TRUSTEE of the survivors. Hence the provision may be considered humanly speaking, beyond any adverse contingency.

All such deferred payments or annuities will share equitably, in the profits or dividends of the Company.

This Company also issues SURVIVORSHIP ANNUITIES, which provide for survivors during the whole period of life, and DEFERRED ANNUITIES, by which individuals may provide for themselves in advanced age.

The Other World.

BY MRS HARRIET BEECHER STOWE.

It lies around us like a cloud—
A world we do not see;
Yet the sweet closing of an eye
May bring us there to be.

Its gentle breezes fan our cheek;
Amid our worldly cares;
Its gentle voices whisper love,
And mingle with our prayers.

Sweet hearts around us throb and beat,
Sweet helping hands are stirred,
And palpitates the veil between,
With breathings almost heard.

The silence, awful, sweet and calm,
They have no power to break;
For mortal words are not for them
To utter or partake.

So thin, so soft, so sweet they glide,
So near to press they seem—
They seem to lull us all to rest,
And melt into our dream.

And in the hush of rest they bring,
'Tis easy now to see,
How lovely and how sweet a pass
The hour of death may be.

To close the eye and close the ear,
Wrapped in a trance of bliss,
And gently drawn in loving arms,
To swoon to that—from this;

Scarce knowing if we wake or sleep,
Scarce knowing where we are;
To feel all evil sink away,
All sorrow and all care.

Sweet souls around us, watch us still,
Press nearer to our side;
Into our thoughts, into our prayers,
With gentle helpings glide.

Let death between us be as naught,
A dried and vanished stream;
Your joy be reality,
Our suffering life the dream.

THE SEQUEL.—Our readers have perhaps heard the story of soaping the clergyman's tin horn at a camp meeting, so that when he went to call the congregation together he blew the 'soft soap' over his brother clergymen, and how he exclaimed:

'Brotheren, I have served the Lord thirty years, and in that time never uttered a profane word, but I'll be darned if I can't whip the man that soaped that horn.'

Our readers, we say, have perhaps heard all this, but never heard the sequel, as given to us by a gentleman present.

Some two days after, a tall, swathy, villainous-looking desperado strolled on the ground and leaned against a tree, listening to an eloquent exhortation to repent, which was being made by the preacher. After awhile he became interested, finally affected, and then taking a seat on the anxious bench, commenced groaning in the very bitterness of his sorrow.' The clergyman walked down and attempted to console him. No consolation—he was too great a sinner, he said. No he was too wicked—there was no mercy for him.

'Why what crime have you committed?' said the preacher, 'have you stolen?'

'Oh! worse than that.'

'What, have you by violence, robbed female innocence of its virtue?'

'Worse than that sir! Oh! worse than that!'

'Murder!' gasped the horrified minister.

'worse than that!' groaned the smitten sinner.

The excited minister commenced 'peeling off' his outer garments.

'Here, brother Cole,' he shouted, 'hold my coat, I've found the fellow that soaped my horn!'

THE ART OF DUNNING. The art of dunning is not reckoned among the polite or fine arts.—Indeed there are no rules on the subject, as each case may be tried by itself, the success of various expedients being very much 'as you light upon chaps.' At times a lucky accident brings the money out of a slow debtor, after the manner following:

One of our merchants, nervous and irritable, received a letter from a customer in the country, begging for more time. Turning to one of his counting clerks, he said,

'Write to that man at once.'

'Yes sir. What shall I say?'

The merchant was pacing the office, and repeated the order—

'Write to him at once.'

'Certainly, sir. What do you wish me to say?'

The merchant was impatient and broke out—

Something or nothing, and that very quick.

The clerk waited for no further orders, but, consulted his own judgement, wrote and dispatched the letter.

By the return of mail came a letter from the delinquent customer enclosing the money in full of the account. The merchant's eyes glistened when he opened, and hastening to the desk, he said to the clerk

'What sort of a letter did you write to this man? Here is the money in full.'

'I wrote what you told me to, sir. The letter is copied into the letter-book.'

The letter-book was consulted, and there stood, short and sweet, and right to the point:

Dear Sir,—Something or nothing; and that very quick. Yours, etc.'

And this letter brought the money, when a more elaborate dun would have failed of the happy effect

WIT AND ANECDOTE. Deacon B was one of the best of men, but by nature very irascible. A cow was so exceedingly disorderly as the Deacon was attempting to milk her one morning, that the old Adam got the better of him, and he vented his excited feelings in a volley of execrations very undeaconish in their character. At this moment the good Deacon's pastor appeared unexpectedly on the scene, and announced his presence by saying, "Why Deacon! can it be; are you swearing?" "Well, Parson" replied the Deacon, "I didn't think of any one being near by; but the truth is, I never shall enjoy religion as long as I keep this cow."

During the past winter a little girl of our acquaintance attended the wedding of her brother, and, judging by the sequel, was very much struck by one line of the marriage service, which she understood literally. A few days after, passing through the room where the bride was sitting in the lap of her liege lord, she exclaimed with all the simplicity imaginable: *"To have and to hold!"*

A rich congregation in F—— worshipped in a very poor and smoky meeting house.—The Society had been called together to provide the means to repair the building. Old Deacon R was appointed chairman, and opened with a long prayer, after which he called upon Brother T to state the object of the meeting. Brother T arose, and, with great gravity said, "My brethren, this meeting has been called for the purpose of providing means *to repair the Lord's smokehouse!*" Something like a smile lit up the countenance of the assembly, and the necessary funds were forthwith contributed.

FLIES,---FLIES.

EMERY'S

Great American Fly Catcher.

Patented May 1, 1866, by Jas. Emery.

Manufactured and sold by

SEAVEY & CO.,

Nos. 83 *and* 85, *Blackstone Street, Boston.*

THIS is the greatest invention of the age for destroying that great pest, the House Fly, which is so annoying to every household and destructive to goods displayed in show windows. Hotel and Saloon Tables should be ornamented with them—thereby doing away with that unclean appearance too often observed.

There has been heretofore objections raised against the use of Fly Paper on account of its unclean appearance, together with the trouble it occasions by the dead flies dropping about into every thing. Now by this truly elegant invention, these great objections are entirely done away with. The flies are all collected within the Catcher, giving a neat and wholesome appearance to the premises where used.

In stores where goods are exhibited and exposed to the damaging influence of the fly, this invention cannot be over estimated.

THE SICK ROOM

Is rendered more comfortable, and the patient requires less attendance. The infant can take his nap in peace.

Mothers, no nursery should be without its Fly Catcher.

Watch Makers, Engravers, Artists, and all other persons engaged in delicate employment, will find them an indispensable article for their rooms—an other great consideration is its cheapness and durability—for 50 or 75 cents, according to style, you have a Fly Destroyer that will last an age.

TRY ONE AND YOU WILL BE SATISFIED.

The Catcher's have been recently improved by adding a perforated bottom and lower entrance.—The Catchers are warranted to catch a host of flies, or no sale.

Arrangements will soon be made for their sale in all cities and towns in the country.

Orders sent to SEAVEY & CO., will be answered promptly.

Canvassers will find this the best selling article for the next four months, ever invented.

DIRECTIONS:

Fill one dish with molasses, place over it its perforated cover, in the other dish put a small piece of fly paper moistened with sweetened water.—Place these dishes within the trap. A common tumbler is to be used as a dome over the centre opening at the top. The flies after entering being separated from the bait will eat the poison, and are thereby destroyed. For sale by

F

CONSTITUTION LIFE SYRUP purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.

CONSTITUTION LIFE SYRUP

E

CONSTITUTION LIFE SYRUP

CURES ALL SWELLING OF THE GLANDS,

Either of the Face, Neck, or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking, and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

S

All scrofulous persons suffering from general Debility, Emaciation, Dyspepsia and Dropsey of the limbs, abdomen, and in the female, Dropsey of the ovaries and womb, generally accompanied with inflammation and Ulceration of the Uterus, are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort.

Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body, will be completely reduced without resorting to the knife, or operations of any kind.

Y

Epileptic Fits, Sympathetic or Organic Disease of the Heart, as palpitation, Disease of the Valves drouceing a grating or filing sound, Dropsey of the Heart Case and all the affections of this important organ (persons suffering from any acute pain in the region of the heart), will be greatly relieved by Constitution Life Syrup.

BROKEN DOWN AND DELICATE CONSTITUTIONS SUFFERING FROM INDISPOSITION TO EXERTION, PAIN IN THE BACK, LOSS OF MEMORY, FOREBODINGS, HORROR OF CALAMITY, FEAR OF DISEASE, DIMNESS OF VISION, DRY, HOT SKIN AND EXTREMITIES, WANT OF SLEEP, RESTLESSNESS, PALE, HAGGARD COUNTENANCE, AND LASSITUDE OF THE MUSCULAR SYSTEM, all require the aid of the CONSTITUTION LIFE SYRUP.

R

FOR ALL FORMS OF

Ulcerative Diseases,

Either of the NOSE, THROAT, TONGUE, SPINE, FOREHEAD OR SCALP, no remedy has ever proved its equal.

MOTH PATCHES upon the female face depending upon the diseased action of the liver, are very unpleasant to the young wife and mother. A few bottles of CONSTITUTION LIFE SYRUP, will correct the secretion, and remove the deposit which is directly under the skin.

In the diseases of the Liver, giving rise to Langour, Dizziness, Indigestion, Weak Stomach, or an ulcerated or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms, will be relieved by the use of CONSTITUTION LIFE SYRUP.

BARRETT'S

THE

Is creating a sensation among the friends of those who have had their gray hair restored to its youthful color, and those whose bald heads have been covered with a luxuriant growth of hair. It so changes and improves their looks that intimate acquaintances scarcely recognize each other. For sale by druggists, of whom circulars can be obtained containing testimony to prove what we have intimated.

Home Proof.

MR. BARRETT:

DEAR SIR,—Having used a bottle of your "VEGETABLE HAIR RESTORATIVE" after having tried many other kinds without success, I am happy to accord to it the *ne plus ultra* of ALL Hair Preparations in the world, and do myself sincerely and cheerfully recommend it to the public as such.

Yours, &c., JOHN FRANKLIN,
No. 6 Tremont street, Boston.

Testimony from Abroad.

Messrs. J. R. BARRETT & Co.:

I was induced by a friend to make a trial of BARRETT'S VEGETABLE HAIR RESTORATIVE, and I am very much pleased with the effect it has had on my hair. I was nearly half gray, and now, before using one bottle, my head is freed from dandruff, and my hair has all the appearance of youth. I fully believe BARRETT'S to be the best Hair Preparation in the world.

Sarsaparilla Compound,

For the Speedy and Permanent Cure of

Liver Complaints, Scrofula or King's Evil, Eruptions, and all Eruptive Diseases of the Skin, St. Anthony's Fire, Salt Rheum, Pimples, Pustules, Blotches and Boils; Rheumatic and Neuralgic Pains in the Bones, Side and Head; for the various Weaknesses to which Females are liable; Dyspepsia, Debility, Emaciation, Dropsy, and all diseases resulting from or in an impure state of the Blood.

IT is invaluable to Nervous Sufferers, and a positive cure for Palsy arising from the abuse of Mercury or Lead.

It is a Tonic as well as an Alterative, and a sure protection from attacks that originate in change of climate, season or life.

LIVER COMPLAINTS and their combined symptoms, such as Lumbago, Jaundice, Rheumatism, Bilious Eruptions, &c. When caused by *Scrofula* taint, this compound is a most effectual remedy.

DYSPEPSIA or INDIGESTION, is often caused by Scrofula, which deranges the stomach, and renders it unhealthy. Indigestion is not always caused by Scrofula, when it is, this Sarsaparilla Compound is a ready cure.

NEURALGIA, HEADACHE and various disorders of the nervous system frequently arise from a low state of the constitutional health, and are much relieved and often cured by this powerful remedy.

ERYSIPELAS, Boils, Tumors, or Salt Rheum, Ulcers, Sores, &c. Moderate doses three times a day will usually effect the cure of the above complaints, but often requires considerable time.

DR. KNIGHTS'

Oriental Hair Restorer.

After a long series of experiments, this article, as it is now offered to the public, is believed to be the most perfect of its kind which science has ever devised. No pains have been spared to produce what has so long been demanded by thousands, who, from sickness or other causes, have become prematurely grey; and others, who, in the sere and yellow leaf of life, would retain, as far as possible, the semblance of youth. DR. KNIGHTS' ORIENTAL HAIR RESTORER, after a few applications, *restores grey or faded hair to its original color,* and is the only preparation of the kind upon which the public can place any reliance. *It has never been known to fail in a single instance,* and is totally unlike the thousand and one so-called Hair Restorers, by which so many have been egregiously deceived.

It is delightfully perfumed, gives the hair a rich and glossy appearance, promotes its luxuriant growth, and will not soil the skin, scalp, or any article of apparel.

PRICE 75 CENTS PER BOTTLE.
